

Writing for the Visual Arts

Persuasive Writing

You have been chosen as a judge for an art show, the competition has come down to two pieces of art work. It is your job to not only choose the winner but justify your decision. You must write a persuasive essay to explain why the work of art you chose was the best decision. In order to be credible in the eyes of the art world you must explain your choice using at least 3 Elements and 3 Principles of design, each Element and Principle must be backed up with details as to how they are used. You must also include an opposing argument for the other piece of art work as to why others may believe that it is also good.
